

CHE 10

10th Workshop on the Chemistry of the Heaviest Elements

Lanzhou, China

September 13 – 16, 2021

First Circular, October, 2020

Background

The CHE 10 is the tenth in the series of international workshop dedicated to recent achievements and developments in experiment and theory on the Chemistry of the Heaviest Elements. The previous series of workshops were held in Grossbothen (1991), Solothurn (1993), Mainz (1995), Stenungsund (1997), Hasliberg (2001), Oslo (2005), Mainz (2009), Takayama (2013) and Ascona (2017).

The CHE10 is organized by Institute of Modern Physics, Chinese Academy of Sciences.

Scope

This workshop will focus on the recent developments in experimental and theoretical aspects of the chemical properties of heavy actinide and transactinide elements. The scientific program will consist of invited talks, oral presentations selected on the basis of submitted abstracts, and poster contributions.

Location

The workshop will be held 应该具体在哪个宾馆? in Institute of Modern Physics,

Lanzhou, Gansu, China. Lanzhou 介绍

The Cultural Hall is close to the JR Takayama station.

Important Dates (preliminary)

- 2nd Circular: January 2021
- Registration: January 2021
- Deadline for abstract submission: March 31, 2021
- Author notification: May 2021
- 3rd Circular/Final program: June 2021
- Deadline for early bird registration: April 30, 2021
- Deadline for registration: June 30, 2021

Organization

The organization of the workshop will be carried out via email communication. All pertinent information will be made available on the website (see below). This includes circulars, registration, submission of contributions and the conference program.
